AAMA GOLD CERTIFICATION

Every Simonton® built ProFinish® Contractor window is AAMA Gold certified, passing the industry's toughest standards. This quality assurance testing delivers durable, weather-resistant and energy-efficient products for your home. Learn more at simonton.com/aama-gold.

Energy Savings. Interior Comfort.

Simonton Contractor windows feature a standard 3/4" insulating glass unit with ProSolar® Low-E glass, an Argon gas fill and the Intercept® spacer system. Available options allow you to customize your glass to deliver maximum energy efficiency for wherever you live.

IN WINTER, LOW-E GLASS HELPS RETAIN WARMED AIR

IN SUMMER, LOW-E GLASS HELPS DEFLECT HEAT

ProSolar Low-E Glass

- Standard glass helps keep warmth inside during winter months and deflect the sun's heat and retain cooled air in summer
- Screens out up to 73% of ultraviolet (UV) rays that can cause interior fading

ProSolar Shade Low-E Glass

- Ideal for **warmer climates** that require help with solar control and interior cooling
- Superior insulating performance

ProSolar Sun Low-E Glass

- Perfect for **cooler climates** that require more help with heating
- Uses the sun's warmth to increase comfort and reduce heating costs

Gas Fill

Standard Argon gas, which is six times denser than air, is sealed between the glass panes to increase insulation and reduce energy loss. Twelve times denser than air, optional Krypton gas can be chosen for maximum thermal efficiency.

Sound & Security

Choose durable double-strength glass for increased safety and sound control.

Spacer Systems

The standard Intercept® spacer system has a U-channel design that keeps glass warmer and flexes and contracts for reduced seal failure.

The Supercept™ spacer system utilizes a stainless-steel alloy that offers increased durability and thermal efficiency.

Increase Privacy

The textured pattern of obscure glass helps maximize privacy while allowing desirable sunlight inside.

Tinted Glass

Help control solar heat gain, reduce glare and visibility into your home with bronze or gray tinted glass.

Simonton offers regionally specific ENERGY STAR® glass packages designed to deliver optimal energy performance and comfort in any area of the country. According to energystar.gov, ENERGY STAR certified windows can reduce energy bills by an average of 12 percent nationwide.*

*Ranges are based on the average savings among homes in modeled cities. Actual savings will vary based on local climate conditions, utility rates, and individual home characteristics.

Elevate Your Home's Design.

From the windows you choose to the color, hardware and grilles, we have the styles & options that will enhance the architecture of your home. Combine multiple window styles to create a beautiful wall of windows or a unique configuration that will set your home apart.

Styles

Other Available Styles: Eyebrow, Extended Eyebrow, Quarter Round, Extended Quarter Round, Extended Gothic, Right Triangle Isosceles, Full Circle, Full Oval, Hexagon, Pentagon, Double Clipped, Clipped Corner, Single Hung Extended Quarter Round, Single Hung Extended Eyebrow, Single Hung Extended Quarter Eyebrow and Single Hung Extended Trapezoid

Interior/Exterior Colors

Standard & Custom Hardware

Architecturally inspired grilles increase curb appeal and highlight your home's character. Window grilles are placed between the glass to make cleaning easier.

Performance Features

Quality matters when you're building a new home. And quality is what the Simonton ProFinish® Contractor series delivers. Each window is built to help protect homes from the elements, save energy and maintain interior comfort during any season.

- A Finished Look** Deluxe J-channel simplifies installation with vinyl siding.
- B Easy Installation** An integral nailing fin for quicker installation.
- C Built to Last** Welded frame and sash for strength and easier handling.
- D Durable Construction** Triple-chambered compound-cut sill helps prevent bowing.
- E Attractive Design** Beveled exterior frame increases architectural character.
- F Increased Comfort** Standard 3/4" insulating glass unit with ProSolar Low-E glass, Argon gas and Intercept® spacer system enhance energy efficiency.
- G Water Barrier** 10-degree sloped sill moves rainwater away from the home.
- H Easy Access** Flush-mount tilt latches release the sash to tilt in for simple in-home cleaning.
- I Maintains Beauty** Extruded vinyl resists chipping, flaking and pitting and retains its looks with virtually no maintenance.
- J Weather Resistant** An overlapping, interlocking meeting rail guards against weather infiltration.
- K Smooth Operation** Stainless steel constant force coil spring balance system allows you to easily move the window sash to any desired position (*Double Hung, Single Hung only*).
- L Dependable Performance** The pivot alignment system keeps the frame and sash in precise alignment, improving squareness and operation (*Double Hung, Single Hung only*).

FLEXIBLE INSTALLATION

Contractor windows have an integral J-channel and nail fin for new construction applications but can be ordered to accommodate replacement installations.
