More sunlight. More space.
More what you want.

Day after day, you'll admire the expanded space, more natural light and design flexibility a Simonton Garden Window brings to your home. This unique dimensional window features two easy-opening side casements and a standard glass shelf that creates a beautiful, sun-drenched nook ideal for plants or collectibles. Built to last, the Simonton Garden Window is made of premium vinyl that retains its beauty with virtually no maintenance. It is also covered by a Double-Lifetime Limited Warranty that is transferable to the next homeowner for extended value.

NATURAL LIGHT

KITCHEN WINDOW

ADDITIONAL SPACE

Enjoy the Design Flexibility of Garden Windows

Garden windows are a versatile style that creates a beautiful, sun-drenched nook. This unique dimensional window features two side operating windows for ventilation and a standard glass shelf ideal for an essential herb garden. Similar to bay and bow windows, garden windows are an excellent choice for any home style. From colonial and cape cods to modern homes, garden windows add unique function and design that can be tailored to your unique style.

MORE SPACE & LIGHT

Angled window increases natural light with area to grow plants, herbs, or display collectibles.

DURABLE WEATHERABILITY

Fusion-welded construction with a snap-in sill cover increases weather resistance, while a multi-point locking system tightly seals the sash around dual weatherstripping.

ENERGY EFFICIENCY

1" double-strength insulating glass unit with ProSolar® Low-E glass and an Argon gas fill for thermal efficiency and comfort.

INTERIOR COMFORT

Multi-chambered profiles in the frame and sash increase thermal performance.

ATTRACTIVE FINISH

Standard 1-1/4" birch veneer seat board complements your home's interior.

SMOOTH OPERATION

Sash easily opens on corrosion-resistant hardware to a full 90 degrees for maximum ventilation.

MAXIMUM VENTILATION

Integral screen track with a roll-formed screen frame and fiberglass mesh allow for fresh air.

CUSTOM SIZES

A wide range of available sizes ensures accurate installation.

Optional Upgrades

ADDITIONAL WINDOW SHELF

Increase display space with a second glass shelf.

INCREASE SAFETY

Upgrade sloping insulating glass unit with tempered glass to increase safety.

ADDED INSULATION

Choose factory-installed seat board insulation to enhance thermal performance.

SEAT BOARD FINISHES

Optional oak veneer or white pionite laminate seat board is also available.
