

THE WINDOW'S FEATURES MAKE ALL THE DIFFERENCE! COMPARE THE REFLECTIONS 5500 WITH INDUSTRY SPECS AND THE COMPETITION.

Homeowners want comfort in their home, not drafts from leaking windows. They don't want rainwater or melting snow leaking in and destroying their beautiful interiors. They want windows that will last. Simonton windows are well designed, engineered, manufactured and tested to meet the homeowner's expectations.

- Our innovative **Lap-Lok® Meeting Rail** overlaps and interlocks the sash to create a tight seal that virtually eliminates air and water infiltration.
- **Weatherstripping** (Pile and Compression) provides 17 points of contact to assist in virtually eliminating air and water infiltration.
- Our exclusive **Triple-Stepped, Sloped Simonton Sill®** forces water away from the window more quickly than flat, conventional sills to help protect your home from water infiltration, even in heavy rain.
- A **Stainless Steel Constant Force Coil Spring Balance System** allows you to easily move the window sash to any desired position, even after years of use.
- Our unique **Denny Clip™ Pivot System** helps to maintain perfect sash alignment on Double Hung windows.
- **Fusion-Welded Construction** bonds each corner together to create a rigid, one-piece frame that offers reliable strength and durability.
